17. OTHER NOTABLE FEATURES OF BUILDING OR SITE (interior and/or exterior).  
Building: A one story Post Modern Church with a gable roof shape, vertical board siding, and a poured concrete foundation. The dominant architectural feature of the church is the square tower topped by the onion shape shingled dome. On the top of the dome is an eastern style cross. The tower is recessed back from the wall of the facade of the church creating a break in the gable roof line. In the lower section of the tower, there recessed double door entrance with sidelights and a transom. Above the entrance there is a "segmental" arched window with stain glass. On the north side of the church there are modern style narrow pointed arched window openings.
